

LIGHTS

Recreational boats operating at night are required to display navigation lights between sunset and sunrise.

When in operation between sunset and sunrise non-powered vessels (rowboats, sailboats, kayaks, and canoes) shall be equipped with a lantern showing a white light, ready at hand and to be displayed in sufficient time to prevent a collision.

Anchor lights are required on all motorboats if anchored between sunset and sunrise. The anchor light is a white light and shall be displayed on the forward part of the motorboat, visible to a boat approaching from any direction.
